ANUBHAVESHWAR MANNA

Product Designer | UX Researcher | Design Research & Field Studies
Bengaluru, India (open to relocation) • +91 96546 90346 • raja12manna@gmail.com
Portfolio • Behance • LinkedIn

PROFESSIONAL SUMMARY

Designer with 6+ years of professional practice — 3.6 years as a designer and design lead across brand, content and motion, and 2.6 years as a product designer, UI/UX designer and researcher. Most recently Product Designer at Anarix.ai, a B2B SaaS platform for Amazon marketers, owning discovery through developer handoff and building the Figma design system. Currently building a community-based commerce platform for craft artisans and authoring a research paper on Kanchipuram handloom weaving, grounded in primary ethnographic fieldwork with weaving households. Experienced across complex operational workflows, multilingual interfaces, users with varying digital literacy, and AI-assisted design workflows spanning research, ideation and prototyping. M.Des in Experience Design (UI/UX), NIFT Bengaluru; BFA in Visual Communication, College of Art, Delhi.

WORK EXPERIENCE

Founder, Design Lead & Researcher
Aug 2026 – Present

INDIEFOLKS — craft documentation & artisan commerce initiative • Kanchipuram, Tamil Nadu / Bengaluru

- Building a community-based commerce platform connecting handloom artisans directly to buyers — owning the product design, brand identity and order experience, and managing artisan relationships for design and fulfilment.
- Designed and ran primary household fieldwork with silk and cotton handloom weavers in Kanchipuram — recruiting participants, conducting interviews through interpreters, and collecting structured household and income data across a supply chain of cooperatives, aggregators and independent weavers.
- Built trilingual consent and data-collection instruments (English, Tamil, Hindi) for participants with limited literacy, obtaining signed informed consent from every participating household.
- Authoring INDIEFOLKS Research Paper No. 001 on succession and status in Kanchipuram silk weaving — Version 0.2, under academic review — with documented methodology, positionality disclosures and openly stated limitations.
- Restructured the study's central thesis after pilot fieldwork contradicted the original hypothesis, reframing an absence in the data as the principal finding rather than a gap to be filled.
- Directing and editing The Last Generation, a documentary built on the same fieldwork, and coordinating a six-person team across research, outreach, market linkage and logistics.

Product Designer
Aug 2024 – Aug 2026

Anarix.ai • Bengaluru, India

- Led end-to-end product design of a B2B SaaS enterprise dashboard for Amazon Marketing Cloud users, owning the full lifecycle from discovery and wireframing to high-fidelity prototypes and developer handoff.
- Simplified complex ad-data workflows and campaign analytics through intuitive information architecture and interaction design, reducing task completion time by 30%.
- Built and maintained a scalable Figma design system — component libraries, variables, motion tokens and living documentation — ensuring visual consistency and faster engineering delivery.
- Ran moderated usability testing and synthesised qualitative and quantitative insight into design changes that improved feature adoption by 25% post-launch.
- Designed micro-interactions and state animations (loading skeletons, hover transitions, progress indicators) with smart animate and component variants, improving perceived performance.
- Partnered with PMs and engineers in an Agile environment to ship the MVP in three months, using AI-assisted tools (Lovable, Emergent, Grok, Claude) to compress the ideation-to-prototype cycle.

UX / Product Design Intern
Jul 2024 – Aug 2024

Pepper Square • Bengaluru, India

- Contributed to product design and UX optimisation initiatives during a focused two-month engagement, delivering design artefacts alongside design and product teams.

UX Designer & Researcher — Graduation Project
Jan 2024 – Jun 2024

ideaForge Technologies Ltd. • Bengaluru, India

- Designed end-to-end user workflows for drone mission-control mobile interfaces used in surveillance, logistics and delivery operations, applying user-centred design methodologies throughout.
- Conducted field research, contextual inquiry and usability testing with operators in live outdoor conditions, translating findings into actionable design improvements.
- Applied heuristic evaluation and affinity mapping to synthesise research data into insight reports that informed the product roadmap.
- Crafted mobile-first interaction patterns and micro-animations for real-time map controls, status alerts and gesture-based navigation.

UX Research Intern
Apr 2023 – Jun 2023

Bosch Global Software Technologies • Bengaluru, India

- Conducted competitive analysis and qualitative user research to identify friction points in B2B lead-acquisition journeys, presenting actionable recommendations to stakeholders.
- Developed landing-page UX improvements contributing to measurable gains in lead conversion for key B2B products.

Content & Design Lead 2021 – 2022
Energy Efficiency Services Limited (EESL) • *Delhi, India*

- Led design and content strategy for brand communication assets, presentations and marketing collateral across a public-sector energy programme, ensuring visual and messaging consistency.
- Introduced structured design workflows and asset-management processes that improved team delivery timelines by 30%.

Graphic & UI Designer (Freelance) 2020 – 2021
Unacademy, Marcoms Avenue • *Remote*

- Created branded digital content, micro-animations and interactive UI concepts for education and marketing clients.
- Executed a contract-to-hire project for Unacademy on collateral design and brand strategy, delivering production-ready assets under tight timelines.

Visual Designer — Motion & UI Jul 2018 – Sep 2020
Dastan Productions • *Delhi, India*

- Designed brand identities, social-media content and explainer-video graphics for independent films and OTT projects.
- Delivered UI mockups, motion graphics and animated intro/transition sequences in After Effects and Illustrator, building the motion-design foundation applied to UI micro-interactions today.

RESEARCH & PUBLICATION

- **INDIEFOLKS Research Paper No. 001 —** *Succession and Status in Kanchipuram Silk Weaving*. Version 0.2, under academic review. Primary ethnographic study of handloom weaving households, with trilingual consent instruments, structured household income data and disclosed researcher positionality.
- **The Last Generation** — documentary film in production, built on the Kanchipuram fieldwork. Directed, edited and scored independently; principal photography October 2026.

EDUCATION

M.Des, Experience Design (UI/UX) — National Institute of Fashion Technology (NIFT), Bengaluru 2022 – 2024
BFA, Visual Communication — College of Art, New Delhi 2014 – 2018

SKILLS

Product & UX: End-to-end product design, UX research, interaction design, usability testing, design systems, information architecture, wireframing, prototyping, user interviews, A/B testing, heuristic evaluation, affinity mapping, accessibility (WCAG 2.1), design sprints
Research & Field Methods: Ethnographic fieldwork, contextual inquiry, participant recruitment, informed-consent design, multilingual research instruments, structured data collection, qualitative synthesis, academic writing
Mobile & Interaction: Mobile-first UX, micro-interactions, state animations, gesture-based navigation, responsive design, smart animate prototyping, skeleton screens
Motion & Visual: UI design, visual design, brand identity, motion graphics, illustration, video editing, animation
Tools: Figma and FigJam (expert), Adobe XD, Illustrator, Photoshop, After Effects, Premiere, Miro, Maze, Notion
AI-Assisted: Lovable, Emergent, Grok, Claude, ChatGPT — applied across research synthesis, ideation, prototyping and documentation
Process: Cross-functional collaboration, Agile / Scrum, design critiques, stakeholder management, design handoff, OKRs
Languages: English, Hindi

SELECTED PROJECTS & AWARDS

- **UI Redesign — Canara Bank Super App** (mobile-first consumer banking) · View on Behance
- **UX Case Study — AJIO Human-Centric Checkout** (mobile e-commerce) · View on Behance
- **Winner, IFP Poster Design Crossover Competition**, 2021. Interests: guitar and vocals, swimming, travel, sketching.
